3 days ago in Saskatoon, SK., a friend's grown daughter was standing in line with her son at the pharmacy. They saw a long line of ppl waiting for the needle. A woman received the needle and collapsed immediately, help arrived quickly and she could not be revived. Everyone else just stayed in the lineup for their turn.

"Died suddenly news on Facebook

You will want him to ask for the Fire Department and EMS recording from October the 14th starting about 12:35 PM.

There is a dispatch to Engine 8 at 12:39:52 you want and Engine 8 admitting 'Covid Shot' October the 14-2022 12:41:36

He might have a contact in the city but if not.

I was in there shopping. Somebody yelled oh my god oh my God Call an ambulance. Because I knew it had to do with the vaccination I went to the pharmacy Your mom was on the floor and a bunch of people were gathered around her. All the people from the pharmacy were out from behind the counter. They all were freaking out. Then a couple of the staff were crying. Someone yelled give us some room and someone from the pharmacy stayed overtop her. They immediately said she has no pulse. Then the ambulance came. I left the store and went to my car. In my opinion it has never been my business To watch something so personal

Did you hear what they said to the 911 call?

I did not I'm sorry. Someone behind the counter at the pharmacy called I think

Did she have no pulse before calling 911 or did she have a pulse?

Correct. I was there immediately and people were running from behind the counter and the first person that got to her said oh my God she does not have a pulse. He had his hand on her neck and her wrist

So she was gone right away 😞

That's what I thought

That is what they said.

Thank you for sharing with me

You are very welcome. I am soooooo sorry.

Hi Stephanie, I feel for you and am praying for you. My husband has just informed me that his friend's daughter is too traumatized by what she witnessed and she is not willing to share much as she has to shield her young son's eyes from what happened. She does not want to get involved. She did tell her dad that no one there knew cpr or tried to help your mom until the ems arrived 10 min. later. She said she could have been saved. ty for your courage and being at the event Mark held. I watched it later. I cry for you. My dad died bc of the 'cucumber' and my mom's health has taken a beating bc of it. I wish you and your family all the best. May the Holy Spirit bring you comfort and peace and may there soon be justice for your mom.

Thank you 🙏 That makes me very sad to hear but thank you
