Dear CMA Presidents **Dr. Alike Lafontaine** (2022-23) and **Dr. Katharine Smart** (2021-22)

Re: Sudden deaths of 80 young Canadian doctors since rollout of COVID-19 vaccines

On September 3, 2022, I wrote you a letter regarding the sudden and unexpected deaths of 32 young Canadian doctors since the rollout of COVID-19 vaccines, and I raised concerns about COVID-19 vaccines and vaccine mandates contributing to these sudden deaths. The letter went viral on social media, it was viewed by millions of people worldwide, was translated into dozens of languages, and became the topic of numerous podcasts, media interviews, internet videos and news articles.

There has been a tremendous interest worldwide into what is killing Canada's fully COVID-19 vaccinated young doctors. Unfortunately, Canada's healthcare leaders including CMA, do not share this interest. Both of you failed or refused to respond to my letter, and you also failed or refused to respond to inquiries made by American philanthropist Mr. Steve Kirsch, as well as inquiries made by journalists.

I am now providing you an update with information about **80 young Canadian doctors who died suddenly or unexpectedly since the rollout of COVID-19 vaccines**. Four more doctors have died since my previous letter, and these unexpected deaths are accelerating. You cannot continue to ignore this.

My team has assembled a database of 1638 Canadian doctor deaths during the period 2019-2022, with 972 of them from CMA's own website. Our preliminary analysis of this extensive data suggests that Canadian doctor deaths under age 50 in 2022 will be 2-fold higher compared to the 2019-2020 average. Shockingly, Canadian doctor deaths under age 40 are already **5-fold** higher in 2022 compared to the 2019-2020 average, and Canadian doctor deaths under age 30 are **8-fold** higher!

McMaster University recently announced the sudden deaths of 3 young fully COVID vaccinated medical residents during the summer of 2022, which is unprecedented. All Canadian medical students and residents were forced into unscientific, unethical, cruel and harmful COVID-19 vaccine mandates.

I implore you again to remember your Hippocratic Oath and your own *CMA Code of Ethics*, and call for an immediate halt to all COVID-19 vaccine mandates in Canadian healthcare.

Thank you,

Dr. William Makis MD, FRCPC
