

THE BEGINNING...

It's been a long and difficult journey.
Over 24 days, 305 courageous witnesses including 94 experts testified at the National Citizens Inquiry.

This is not the end. This is just the beginning.
Join us.

Why do Covid-19 vaccines continue to be exempt from proof of safety or effectiveness?

Why was the Interim Order (2020) codified into law when there is no health emergency?

Why did the government pay for and ship vaccines before approval?

Why does the government continue to ignore accumulating safety signals?

Canadians deserve to be:

- Heard
- Acknowledged
- Answered

*Neither
Safe Nor
Effective*

I am a constituent, living in the [redacted] postal code. As a concerned Canadian, I need your help. I watched testimony from the National Citizens Inquiry. With over 305 civilian and expert witnesses, testifying under oath, the evidence is overwhelming that something went wrong with the Covid-19 vaccinations. Too many Canadians have been injured or died, to ignore the safety signals, lack of evidence and conflict of interest that surrounds the approval of Covid-19 vaccines.

No Postal Required

Canadians MUST be made aware that the vaccines were approved (and continue to be approved) without proof of safety or effectiveness. Those who resisted vaccination, who had questions, were attacked and vilified. The testimony presented by experts and citizens is compelling, scary and anger producing.

I believe it is imperative that 4 recommendations from the National Citizens Inquiry's Interim Report are shared with all Canadians, and implemented.

- ✓ Stop the use of Covid-19 vaccines in Canada.
- ✓ Rescind the new revisions to the Food and Drug Regulations.
- ✓ Carry out a full judicial investigation.
- ✓ Make all Covid-19 documentation and information publicly available.

It isn't easy to go against the narrative. The brave testifiers know this only too well. Now is the time for you to step up, learn more and speak out to protect Canadians now and in the future.
