

JUST ONE VOICE

A doctor was particularly concerned about the clinical trials and wanted more detail. "My job," she said at the time, "is to pick these new-drug applications to pieces."

When she refused to approve the application, company executives insisted that the doctor was depriving people of an amazing drug.

The Drug was Thalidomide

The doctor was Dr. Frances Kelsey

In 1962, Dr. Kelsey was hailed as a hero in the U.S. and given the President's Award for Distinguished Federal Civilian Service by John F. Kennedy.

In 2015, Dr. Kelsey was finally presented with the Order of Canada just before her death.

At the **National Citizens Inquiry 305 brave civilians and experts** spoke out about the Covid-19 vaccines and the government's handling of the pandemic.

Will it take the government 50 years to recognize their important contribution?
