**Subject:** (EXT) Request for a Meeting with Suzanne Hoffman ASAP - A Follow up on our Presentation from June 14, 2021 at the VSB Special Committee

Dear VSB CEO, Board Members, Secretary Treasurer and Trustees,

This email is to follow up on our delegate presentation from June 14, 2021, speaking and representing parents' deep concerns regarding covid 19 vaccines roll out for ages 12 and up. Attached below are links with information, out of plenty of peer reviewed scientific articles, experts and doctors' reports of harms, injuries and even deaths, as a result of children getting the so called vaccine.

This is a matter of urgency as you have forwarded a letter from the VCH on May 20, 2021, to all parents/guardians, stating that anybody can sign up for taking the vaccine, age 12 and up, without informed parental consent.

**We strongly request that by June 30, 2021, Suzanne Hoffman and/or a VSB admin member, will send a letter to all parents/guardians in the Vancouver school board district, stating clearly that Informed Parental Consent for all medical procedures, including but not limited to the covid 19 vaccines and tests for children under age 18, is required.**

**WE REQUEST HERE A MEETING WITH YOU TO DISCUSS THIS MATTER ASAP!**

Next week we have a few dates open: Monday, Tuesday and Thursday anytime from 9am-1pm.

Look forward to hearing from you soon.

Best,  
Hila.

Hila Russ-Woodland and *Protect All Children* Council Members.

Hila Russ-Woodland

**Acknowledgement of Myocarditis Risk:**

- June 10th, 2021 America's Frontline Doctors Re: CDC Acknowledgement
- May 31st, 2021 The Israeli Public Emergency Council for the Covid19 Crisis
- May 25th, 2021 NBC News

**Expert Opinion Re: Myocarditis**

- May 27th, 2021 Dr. Bryam Bridle Associate Professor of Viral Immunology at the University of Guelph

*Since coming forward Dr. Bryam Bridle stating his expert opinion, he has been ostracised publicly through a slander site which links to politically motivated website "Science Up First". Why is a political organization connected to the defamation of the opinion of an Associate Professor of Viral Immunology?*

**Journal Published Research Re: Informed Consent**

- The International Journal of Clinical Practice: informed consent disclosure to vaccine trials subjects of risk of COVID-19 vaccines worsening clinical disease

**Legalities:**

- The Nuremberg Code:

"The voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision"

"The experiment should be so conducted as to avoid all unnecessary physical and mental suffering and injury."

"The degree of risk to be taken should never exceed that determined by the humanitarian importance of the problem to be solved by the experiment."

"During the course of the experiment the scientist in charge must be prepared to terminate the experiment at any stage, if he has probable cause to believe, in the exercise of the good faith, superior skill and careful judgment required of him, that a continuation of the experiment is likely to result in injury, disability, or death to the experimental subject."

**Derek Sloan, Member of Parliament for Hastings-Lennox & Addington -**

"On the same day I was censored for hosting a Parliamentary Press Conference on the Censorship of Doctors across Canada; I also rose in the House of Commons to once again speak out against the tyrannical censorship of free thought that we are seeing take place every day!"
